There are a number of files to download, so you may want to make a cPanel backup of your website before downloading the file. Dec 23, 2012 Just wanted to see if you can help me. I have a client who just signed up with Cpanel, and when I went to file manager they said I didn't have permission to download a file. I wasn't on cpanel and had trouble figuring out where I needed to be. I am trying to use the file manager for the first time and am having problems. I don't know Dec 23, 2012 Set the path to cPanel in the user/home/file manager/config file. Dec 23, 2012 I have a file I have moved to cPanel and I can access it but I can't download it. Sep 8, 2011 I have a problem downloading archives or files from my server using CPANEL File manager,when i press the download button nothing happens. Sep 8, 2011 I have a problem downloading archives or files from my server using CPANEL File

manager,when i press the download button nothing happens. Jul 18, 2012
I'm trying to create a file in cpanel using cpanel file manager but it is not
allowing me to do so because the file is being used by the server. I am
unable to find the file used by the server. I really need to do this as i will be
creating an XML file and putting it on my server. It needs to be on my
server as it is the only way Jul 18, 2012
